DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Vincent Loccisano on 3/16/2007.

The application has been amended as follows:

Claim 1 has been amended to add an additional step at the end of the claim.

The word "and" before the step of "forming groups" is deleted.

The period at the end of the claim is deleted and replaced with ";" (period after seismic waveform data are similar).

A new step is add after the last step of the claim reading:

"storing said groups of extrema positions."

Allowable Subject Matter

Claims 1 and 3-21 are allowed.

The following is an examiner's statement of reasons for allowance:

The closest prior art of record does not sow the steps of identifying extrema positions with sub-sample precision, deriving coefficients from a single extrema data

point as claimed, and forming groups of the positions using a Gaussian statistical model. The closest prior art showed determining and grouping extrema positions, but did not show how to do this from extrema points identified with sub-sample precision, where coefficients are derived from a single extrema data point and the grouping is done by a Gaussian statistical model.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Scott A. Hughes whose telephone number is 571-272-6983. The examiner can normally be reached on M-F 9:00am to 5:30pm.
